The Sanitary Survey Action Committee (SSAC) provided project oversight, logistical support, and manuscript review for the *2001 Sanitary Survey Update*. A work team consisting of members of the SSAC and California Department of Health Services worked with Department of Water Resources staff to refine the original work plan for the update, and to address issues that arose during its writing and production. While the majority of the draft report was reviewed by the SSAC, this report is a DWR product and does not necessarily reflect the viewpoint of individual committee members or the member's organization.

The Department of Water Resources appreciates the SSAC's input and support in the development of the *2001 Sanitary Survey Update*:
